We are receiving many applications from people with more time on their hands due to the impact of Covid-19. If life went "back to normal" tomorrow, how would that impact your ability to train and care for your new dog?
--

If life went "back to normal" tomorrow, how many hours on average a day would the dog/puppy be left alone (without humans)?

Most people during the social distancing of Covid-19 will have more time available to spend with their new rescue dog/puppy. How will you help prepare your new rescue dog/puppy for life without your constant presence after life goes "back to normal"?

Please initial each statement.

I am prepared to make a 10-15 year commitment to a dog.

I will keep my dog on monthly heartworm prevention twelve months a year.

I will provide flea/tick medicine/prevention as needed.

I will work with my vet and agree on a regular schedule for wellness visits, inoculations, and any other tests we agree are necessary for the health and well-being of my dog.

I will not chain or tie-up my dog and leave it outside alone. My dog will be an indoor dog and an important member of my family.

If, for any reason, I am unable or unwilling to keep this dog, I agree to return him/her to Second Chance Habitat. I will not give this dog away, take it to a shelter, place him/her with another person or family member, or sell this dog to any other person without the express permission of the Second Chance Habitat.

I am financially able to provide routine and emergency care for this dog for his/her lifetime. This includes but is not limited to food, boarding (if necessary), regular vet care, heartworm preventative and flea and tick preventative.

I have reviewed my application and certify that everything is accurate to my knowledge.

I understand that all animals adopted through Second Chance Habitat are required to be spayed/neutered prior to adoption or at 6 months of age if adopted as a puppy. I understand there are NO EXCEPTIONS, unless the sterilization surgery is deemed unsafe for the dog due to an acute or chronic medical condition.

I understand that ALL Household members, including children, must be present during the home check evaluation, if one is scheduled.

I accept that the Second Chance Habitat adoption coordinators have the right to deny my application for any reason. However, a rescue volunteer will notify you of the status of your application once a decision is reached about the placement of the dog in question.

I agree to allow the Second Chance Habitat Adoption Coordinators to obtain any pertinent information regarding my home situation and care of animals. This includes, but is not limited to, obtaining a vet reference from current/past veterinarians, and doing a home visit and inspection with the applicant and household members.
